Celebrating Moments

From morning assemblies to classroom activities and festive celebrations, every day at ICON is a celebration of learning and joy. Special events like Red colour day, Christmas celebration, Thanks giving day, Mathematician day.

Student Spotlight

This newsletter proudly highlights the achievements of our young ,talented Iconites — whether they excel in sports, showcase their talent in dance and arts, or making a difference through leadership and kindness.

Special Achievements

We are proud to share M. Mokishith of Grade 4A participated in Chess Academy @ Brain Gym Under age 9

Special Assembly Mathematician Day

National Mathematics Day Celebration

Mathematics is not just about numbers—it's about logic, creativity, and problem-solving that shapes young minds for the future. On the occasion of National Mathematics Day, we proudly celebrate the birth anniversary of the legendary mathematician Srinivasa Ramanujan, whose life inspires curiosity, innovation, and excellence. Our students enthusiastically participated in engaging math activities, puzzles, games, and problem-solving tasks that made learning joyful and meaningful. Through these activities, they discovered that mathematics is everywhere—simple, exciting, and powerful. ✨
“Mathematics teaches us to think logically and dream infinitely.” ✨

Teacher Led Conference

The Teacher Led conference for grade 1 to 8 was conducted successfully, enabling effective interaction between parents and teachers. The session focused on student's academic progress, overall development and strengthening the school parent partnership

Self Defence

Students learning the self defence techniques in class, to enhance personal safety, confidence and self discipline.

A Fun Day Grade 3 to 8 – Picnic to Daisy Dale

The picnic was a perfect blend of adventure learning and fun, creating joyful memories. It provided a perfect break from academics.

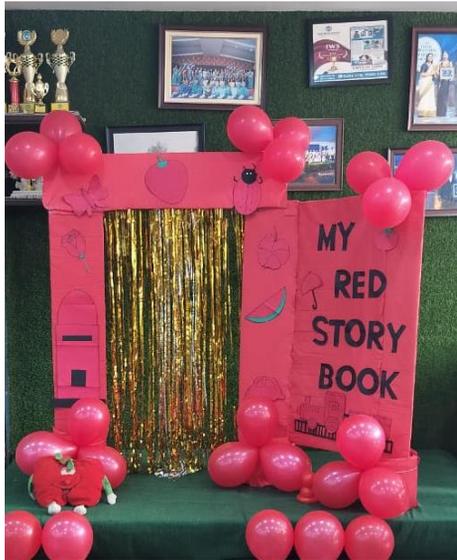

Pre - Primary

Red colour & Christmas celebrations

With hearts full of innocence and joy, our Pre-Primary students beautifully celebrated Red Colour Day and Christmas by a thought provoking skit and graceful dance performance  

Dressed in vibrant red, the little ones expressed values of love, sharing, and togetherness, capturing the true spirit of the season. Their confident expressions, rhythmic movements, and sincere efforts made the celebration truly memorable and heart-warming.

Such moments reflect not just celebration, but meaningful learning through creativity and expression.

Thanks giving Day

On the occasion of Thanks giving Day, our Pre primary children visited Unnat House, home to deaf and dumb children, as part of a meaningful children with hearing and speech impairment outreach activity. This visit offered our young learners a valuable opportunity to express gratitude, develop empathy, and understand the importance of kindness and inclusion. It was a heart-touching experience that reminded us all that true learning begins with compassion and gratitude.

Nursery Picnic at the Botanical Garden — A Day Filled with Nature,

Smiles & Wonder! 🌸🌿 Our tiny nursery explorers spent a joyful and refreshing day at the Botanical Garden, surrounded by vibrant flowers, tall trees, and the soothing beauty of nature.

🌻👶 The little ones enjoyed walking along the garden pathways, observing colorful plants, listening to birds, and experiencing the calm green environment. Each moment was filled with curiosity, excitement, and innocent happiness as they discovered the magical world of nature.

Positive Affirmations

I believe in myself.

My life is beautiful.

I have a big heart.

I am safe and cared for.

I am a good listener.

I can ask for support.

My life is fun and filled with joy.

I am a fast learner.

I have amazing abilities.

I will make the most of this day.

My future is bright.

Every Mistake Helps You Learn Something New

By Madhuri

As teachers, we often see children worry when they make mistakes. I would like to remind everyone that mistakes are not something to be afraid of. In fact, every mistake helps a child learn something new and important. In the classroom, students are constantly learning new skills. While writing, they may spell words incorrectly. In mathematics, they may arrive at a wrong answer. These moments are valuable learning opportunities. When a child understands where they went wrong, true learning begins. If children never make mistakes, they miss the chance to grow and improve. Mistakes also play an important role in shaping a child's character. When students try again after making a mistake, they develop patience, confidence, and courage. They learn that success does not come instantly but through effort and practice. Many great achievers succeeded because they learned from their mistakes and never gave up. As teachers, we guide students by correcting their mistakes with care and encouragement. Our aim is not to discourage them, but to help them understand and do better next time. When students feel safe to make mistakes, they become more curious, creative, and willing to learn. It is important to teach children to accept their mistakes positively. Encouraging them to say, "I will try again," helps build a strong learning attitude. Mistakes should be seen as steps towards improvement, not as failures.

School: Where Dreams begin to Take Shape

By Bhavani

School is more than just classrooms and textbooks. It's a space where curiosity meets opportunity. Think about it – it's where friendships are forged, talents are discovered and dreams start getting a blueprint. From late-night study sessions to those 'aha!' moments in class, school shapes us in ways beyond academics.

It's where we learn to dream big, take risks and grow into who we're meant to be. What makes school special is the blend of learning and self-discovery. Whether it's sports, arts, or debates it's a playground for exploring passions and building the confidence to chase them.

✧ School is where the foundation of who we are is built. It's a mix of laughter, learning, and those 'I can do this!' moments.

Think back – whether it was acing a tough exam, nailing a presentation, or just hanging out with friends, those moments shape us. And let's not forget the mentors – teachers who push you, guide you, and sometimes, change your life .

Life : Then Vs Now (Smart phones) by - Grade 8

BEFORE

NOW

By Pujith Varma

Before the invention of Phone

People spent more time on in-person and offline activities, such as:

Talking face-to-face with friends and family

Playing outdoor games and sports

Reading books, newspapers, and magazines

Writing letters or using landline telephones

Listening to the radio or music players

Studying with physical books and visiting libraries

Social life largely depended on meeting people in person and participating in planned activities.

After the invention of Phone

People increasingly use mobile phones, social media, and video calls for communication and entertainment, including:

Playing mobile and online games

Watching videos, reels, and streaming shows

Creating digital content (photos, videos, posts)

Learning online (YouTube, apps, online

classes) Shopping, banking, and booking services online

Social interaction is often instant, virtual, and technology-based, rather than face-to-face.

The Evolution of Connection: Lost in the Screen?

BEFORE PHONES

AFTER PHONES

Home Life
(NO Phones NO TV)
The circle: Families
Sat in a circle
facing each other to
talk, rather than
in a row facing a
Screen.

The Sun's Schedule:
People went to sleep

Shortly after dark and woke up at dawn
because there were
no bright light to keep
them busy. People didn't
watch entertainment;
they made it themselves

Home Life

(With Phones and TV)

Screen Centers: The
living room is arranged
around a large TV, which

Serves as the main background noise for the house.

On-Demand Living: You don't have to wait for
a show to start or a letter to arrive everything
from movies to food can be ordered instantly.
